

# MICHEL SILVEIRA

Technical Writer | API Documentation | Docs-as-Code

Rio de Janeiro, Brazil | +55 21 99709-3040 | michelfixingit@gmail.com

LinkedIn: [linkedin.com/in/micheltthedev](https://www.linkedin.com/in/micheltthedev) | GitHub: [github.com/michelgss](https://github.com/michelgss) | Portfolio: [michelgss.github.io/portfolio/](https://michelgss.github.io/portfolio/)

## PROFESSIONAL SUMMARY

I'm a Technical Writer with a Full Stack (MERN) background, so I actually read the source, run the REST endpoints, and walk through the developer flows before writing a single line. That way the docs reflect how the system really behaves, not just how it was specified. I focus on API references, developer guides, user manuals, and UX copy, all built with Docs-as-Code workflows (Git, Markdown, OpenAPI). Over the past 8+ years I've turned complex technical systems into clear, plain-language content that developers and end users can actually follow.

## CORE SKILLS

**Documentation:** Technical Writing, API Documentation (REST), Docs-as-Code, Information Architecture, UX Writing, Knowledge Base

**Doc Platforms & Tools:** Docusaurus, Redocly, OpenAPI / Swagger, Postman, Markdown, Git / GitHub, JIRA

**Technical Stack:** JavaScript, Node.js, React, MongoDB, Express, HTML5, Python, JSON

**Accessibility:** WCAG, WAI-ARIA, Web Accessibility

**Process:** Agile (Scrum, Kanban), SDLC, ITSM

**Languages:** Portuguese (Native), English (C1 Advanced - EF SET certified)

## PROFESSIONAL EXPERIENCE

### Technical Writer - AWRIT

Jan 2025 - Present

Remote - Rio de Janeiro, Brazil

- Authored REST API references, integration guides, developer tutorials, and end-user manuals, translating complex Engineering specs into action-driven content for developers and end users.
- Built and maintained Docs-as-Code workflows (Git + Markdown), applying the same review, pull request, and versioning rigor used for source code to keep documentation aligned with every product release.
- Validated technical accuracy end to end by exercising REST endpoints, running code samples, and reproducing developer flows with hands-on MERN expertise, reducing inaccurate-documentation reports.
- Partnered asynchronously with distributed Engineering and Product teams to capture requirements, align documentation with the roadmap, and ship content in parallel with shipped code.

### IT Intern, Production Support - Editora Globo

Mar 2024 - Dec 2024

Hybrid - Rio de Janeiro, Brazil

- Authored runbooks, incident playbooks, and knowledge base articles for LAN/WAN networks, switches, routers, and firewalls in a 24/7 mission-critical environment, standardizing response procedures for the support team.
- Supported incident, change, and problem management using ITSM tooling, improving documentation consistency across recurring tickets.
- Gained direct exposure to the full SDLC in production, informing documentation that reflects how systems actually behave, not only how they are specified.

### IT Generalist - Self-Employed

Jan 2018 - Present

Rio de Janeiro, Brazil

- Authored user guides, installation manuals, and troubleshooting articles for Windows / Linux environments and SOHO networks, reducing recurring support requests from long-term clients.
- Produced training materials, cybersecurity best-practice documentation, and step-by-step runbooks for non-technical audiences, fostering client autonomy and standardizing service delivery.
- Translated complex IT concepts into plain-language, actionable guidance across 8+ years of direct client work - foundational, high-volume practice for the UX-writing side of my current role.

## EDUCATION

### Technologist Degree in Internet Systems - Centro Universitario IBMR

2026

Rio de Janeiro, Brazil

## CERTIFICATIONS

- **Good with Words: Writing and Editing** - University of Michigan (2026)
- **WAI0.1x: Introduction to Web Accessibility** - W3Cx / edX (2026)
- **CS50x: Introduction to Computer Science** - HarvardX / edX (2024)
- **EF SET English Certificate** - C1 Advanced (68/100, 2024)
- **Principles of Agile Development** - ITA (2024)
