SUMMARY

Full stack developer who also writes technical documentation, with a background in production support. I code in JavaScript and Python on the MERN stack (MongoDB, Express, React and Node.js), with Next.js and Tailwind on the front end. Before documenting a system, I read the source code and logs, query records with SQL and test the API with Postman and Swagger. I write API references, developer guides, runbooks and knowledge base articles, working docs-as-code. At Editora Globo I handled Tier 2 tickets in a 24/7 operation and built Python automations. Degree in Internet Systems, English C1.

SKILLS

Development: JavaScript, Python, React, Next.js, Node.js, Express, MongoDB, SQL, Tailwind CSS, HTML and CSS, REST APIs, AWS
Technical writing: API references, developer guides, tutorials, user manuals, runbooks and knowledge base articles; Diátaxis framework and Microsoft Writing Style Guide
Docs-as-code: Markdown, Docusaurus, Redocly, OpenAPI/Swagger, Mermaid, Git and GitHub with branches and pull requests
Technical research: Reading third-party code and application logs, SQL queries, API testing with Postman, reproducible cases with expected result, actual result and affected records
Support and infrastructure: Tier 2 support in 24/7 production, triage by severity and impact, Active Directory, Microsoft 365, Protheus, Windows and Linux, LAN/WAN networks, incident management with ITSM
Accessibility and AI: WCAG and WAI-ARIA (W3Cx); structured use of AI: build the context, split into steps and check the result against the source
Work and languages: Jira, Scrum and Kanban · Portuguese (native), English C1 advanced (EF SET)

EXPERIENCE

Technical Writer | AWRIT

Remote, Rio de Janeiro, Brazil | Jan 2025 to Present

- Work on full stack development with JavaScript, MongoDB, Tailwind CSS and REST API integration, in an AWS environment.
- Read source code and application logs and query records with SQL to confirm how the system actually behaves.
- Write integration guides, tutorials, manuals and API references, testing each endpoint with Postman and Swagger.
- Maintain documentation docs-as-code with Markdown and Git, along with runbooks and knowledge base articles.
- Bridge support and engineering with reproducible cases: expected result, actual result and affected records.
- Track requests in Jira, in Scrum and Kanban, with distributed Engineering and Product teams.

IT Intern, Production Support | Editora Globo

Hybrid, Rio de Janeiro, Brazil | Mar 2024 to Dec 2024

- Handled Tier 2 tickets in a 24/7 operation, with triage by severity and impact and first contact resolution.
- Worked with Active Directory, databases, Microsoft 365 and Protheus to support users.
- Built Python automations for repetitive support tasks.
- Investigated failures on Windows and Linux through logs and the command line, and supported LAN, WAN and wireless networks.
- Wrote runbooks, incident playbooks and knowledge base articles, and helped standardize the team's procedures.
- Took part in incident, change and problem management with ITSM, recording cause, fix and category.

Technical Support and Web Development (freelance) | Self-employed

Rio de Janeiro, Brazil, remote and on-site | Jan 2018 to Present

- Built websites and web applications for clients with React, Node.js, MongoDB and Tailwind CSS.
- Support individuals and small businesses by chat, email and remote access, from first report to resolution.
- Install, configure and recover workstations, and set up small office networks, firewall rules and VPN.
- Write user guides, installation manuals and troubleshooting articles in plain language.

EDUCATION AND CERTIFICATES

Technologist Degree in Internet Systems | Centro Universitário IBMR, Rio de Janeiro | Completed August 2026

- CS50x: Introduction to Computer Science, HarvardX / edX (2024) · Google IT Support Professional Certificate (6 courses), Google
- Programming for Everybody: Getting Started with Python, University of Michigan (2024) · Introduction to HTML5, University of Michigan (2024)
- Introduction to JavaScript: The Basics, Coursera (2024) · Principles of Agile Development, ITA (2024)
- Writing Effective Technical Documentation and Introduction to Technical Writing, Board Infinity · Good with Words: Writing and Editing, University of Michigan
- WAI0.1x: Introduction to Web Accessibility, W3Cx / edX (2026) · EF SET English Certificate, C1 Advanced, 68/100 (2024)
